Points to Note

1. Check if we can track specific user usage
 - a. During presentation, show xyz (do not need exact name of user) user, their timestamp
 2. Went through midterm reviews
 - a. More hawkers video, not just 1-2
 3. Firebase or Backend Admin Module? Have to decide based on what value does the final build have for sponsors
 - a. At least three data points otherwise there is no need for a admin module
